Re: Morse Code – Removal of Requirement for License Amateur  
(comment)

Dear Sirs,

I am in support of removing the morse code requirement/ element  
for all

Licensed Amateur Radio, tests sections and operations.

I feel the element is a subject of division within the amateur radio  
community

and it also reduces the number of persons applying for radio licenses.  
We need to  
get in line with the international trend to remove the requirement.

Sincerely,

CAPT Blane M. Wilson,

USN, RET
